Perfecto is moving its users discussion Forum to the new [Questions](#) area of the Information Portal.

Sign up

Before you can join into the discussion in the new Forum, you will need a user account on the portal. The Signup procedure is quite simple:

Step 1: Browse to the [Information Portal](#).

Step 2: Click on **Sign up** - in the upper right corner of the screen.

Step 3: Provide your basic information in the *Sign up* form:

- > Your Full Name
- > Your **company** Email address
- > Your preferred Username and Password

A screenshot of a 'Sign up' form. The form is titled 'Sign up' and contains five input fields: 'Full Name' (filled with 'joe perfecto'), 'Email' (filled with 'joep@perfectomobile.com'), 'Username' (filled with 'joep'), 'Password' (filled with four dots), and 'Confirm Password' (filled with four dots). Below the fields is a blue 'Sign up' button. At the bottom of the form, there is a link: 'Already have a username and password? [Log in here](#)'. The footer of the page shows language options: 'English (UK) · English (US) · Español · Français · Português · Русский · 日本語 · 한국어' and 'Powered by Atlassian Confluence 5.10.7'.

Step 4: Click the *Sign up* button and you are transferred to the Information Portal with your new identity.

Step 5: Browse the *documentation, tips, or Forum* to learn more.

Watch a page

Want to get updated when a particular page changes? Simply Watch the page (or the entire Space), and Confluence will notify you when the page is updated, with highlights of what was updated.

To start watching a page:

- Open the page you want to watch.
- Click the **Watch** button on the right side of the top line of the page display.

The screenshot shows the 'Release Notes' page in Confluence. At the top right, there is a 'Watch' button. A callout bubble points to it with the text '1. Click the "Watch" button'. Below the page content, there is a modal dialog box titled 'You are not watching this page'. It contains two options: 'Watch page' and 'Watch all content in this space'. A second callout bubble points to these options with the text '2. Select to either: * Watch for changes to this page, or * Watch for changes to any page in the Space'. The page content includes sections for 'Integrations' (listing Eclipse, Visual Studio, IntelliJ, Android Studio, and UFT) and 'Platform support'.

- Select to watch for changes to the page.
- Optionally, select to watch for all changes to pages in the Space.

When the page is changed, you receive an email indicating that a change was implemented:

The screenshot shows an email notification from Confluence. The sender is 'D' (Confluence) with the email address '(Confluence) <developers@perfectomobile.com>'. The subject is '[confluence] DOCUMENTATION > Release Notes'. The email body contains the text: 'Thu 1/25/2018 8:20 AM', 'D (Confluence) <developers@perfectomobile.com>', and '[confluence] DOCUMENTATION > Release Notes'. There is also a link to view the message in a web browser.

The screenshot shows a notification on a Confluence page: 'There's 1 new edit on your page'. Below this, it says 'Release Notes' and 'Yaacov Weingarten edited this page'. Underneath, it says 'Here's what changed:'. The content of the edit is a list of supported device platforms for Perfecto: 'Perfecto supports Automation Testing for the following device platforms in the latest Perfecto version :'. The list includes: 'iOS 11.2.2-5 GA supported', '11.2.5 beta 7 supported', 'Android 8.1.0 GA supported', 'Windows 10 Mobile (build 1511) [devices with resolution up-to 720p] supported.', and 'Desktop Web - Check the full list of supported browser VM here.'. A callout bubble points to the '11.2.2-5 GA supported' line with the text 'Changes are highlighted (here the "2" was deleted and the "5" added)'. The '2' in '11.2.2' and the '5' in '11.2.5' are highlighted in green.

Ask a question

To ask a new question or start a new discussion:

- Enter the question/issue in the dialogue box at the top of the window.
As you type, the forum will suggest existing discussions using the same keywords, see whether your issue is already under discussion.
- Click on the **Ask question** button to the right.
- Attach a *Topic* to the question, select one of the pre-defined topics in the list.

By selecting a relevant Topic the question will be directed to one of Perfecto's expert staff to allow for a quick and accurate answer. Discussions without a topic defined may only receive a delayed reply.

Discuss in the Forum

After signing-up you can join into the discussion in the *Questions* area. To access the discussions, click on **Questions** in the portal's menu bar.

This will display the most recent questions submitted to the forum.

- Click on one of the questions to see the full discussion.
- Add your answers or comments.
- Earn points and become "experts" by having your answers accepted in the discussion.
- Vote for different discussions to bring them to our attention.
