

Selenium Error: NoSuchElementException: Unable to find element on closed window

Problem

The following error is received during execution of a web cradle script for Internet Explorer browser.

```
NoSuchWindowException: Unable to find element on closed window
```

Solution

Set the following capabilities to resolve the issue:

```
capabilities.setCapability("ignoreProtectedModeSettings", true);  
capabilities.setCapability("initialBrowserUrl", "<YOUR_URL>");
```

Replace <YOUR_URL> with the URL of your application.
